

## Datasheet for ABIN6378805

### CKM Protein

[Go to Product page](#)

#### Overview

|               |                                       |
|---------------|---------------------------------------|
| Quantity:     | 1 mg                                  |
| Target:       | CKM                                   |
| Origin:       | Rabbit                                |
| Source:       | Escherichia coli (E. coli)            |
| Protein Type: | Recombinant                           |
| Application:  | Western Blotting (WB), SDS-PAGE (SDS) |

#### Product Details

|                  |                                              |
|------------------|----------------------------------------------|
| Characteristics: | Rabbit Creatine Kinase, Muscle (CKM) Protein |
|------------------|----------------------------------------------|

#### Target Details

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| Target:           | CKM                                                      |
| Alternative Name: | Creatine Kinase, Muscle ( <a href="#">CKM Products</a> ) |

#### Application Details

|                    |                                                                                                                                            |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.                                                                         |
| Comment:           | Please note that the majority of this suppliers proteins are partial length rather than full length.<br>We recommend customers to inquire. |
| Restrictions:      | For Research Use only                                                                                                                      |

## Handling

---

|                    |                                                                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                    |
| Buffer:            | Prior to lyophilization: PBS, pH 7.4, containing 0.01 % SKL, 1 mM DTT, 5 % Trehalose and Proclin-300.                                     |
| Preservative:      | Dithiothreitol (DTT), ProClin                                                                                                             |
| Precaution of Use: | This product contains ProClin and Dithiothreitol (DTT): POISONOUS AND HAZARDOUS SUBSTANCES which should be handled by trained staff only. |
| Storage:           | 4 °C,-80 °C                                                                                                                               |
| Storage Comment:   | Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles.                               |
