## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µL                              |
| Target:              | PTRF                                |
| Binding Specificity: | AA 90-170                           |
| Reactivity:          | Human, Mouse, Rat                   |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This PTRF antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA        |

## Product Details

|               |                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Unconjugated Rabbit polyclonal to PTRF                                                                                 |
| Immunogen:    | Synthesized peptide derived from human PTRF protein.                                                                   |
| Isotype:      | IgG                                                                                                                    |
| Specificity:  | PTRF Polyclonal Antibody detects endogenous levels of protein.                                                         |
| Purification: | PTRF antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | PTRF                                   |
| Alternative Name: | PTRF ( <a href="#">PTRF Products</a> ) |

## Target Details

|                   |                        |
|-------------------|------------------------|
| Molecular Weight: | 42 kDa                 |
| Gene ID:          | 284119                 |
| UniProt:          | <a href="#">Q6NZI2</a> |

## Application Details

|                    |                                  |
|--------------------|----------------------------------|
| Application Notes: | WB 1:500-2000 ELISA 1:5000-20000 |
| Restrictions:      | For Research Use only            |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid form in PBS containing 50 % glycerol, and 0.02 % sodium azide.                                                  |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
