## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | IFNA5                                |
| Binding Specificity: | AA 30-110                            |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This IFNA5 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|               |                                                                                                                         |
|---------------|-------------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Unconjugated Rabbit polyclonal to IFNA5                                                                                 |
| Immunogen:    | Synthesized peptide derived from human IFNA5 protein.                                                                   |
| Isotype:      | IgG                                                                                                                     |
| Specificity:  | IFNA5 Polyclonal Antibody detects endogenous levels of protein.                                                         |
| Purification: | IFNA5 antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | IFNA5                                    |
| Alternative Name: | IFNA5 ( <a href="#">IFNA5 Products</a> ) |

### Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Molecular Weight: | 20 kDa                                          |
| Gene ID:          | 3442                                            |
| UniProt:          | <a href="#">P01569</a>                          |
| Pathways:         | <a href="#">JAK-STAT Signaling, Hepatitis C</a> |

### Application Details

|                    |                                  |
|--------------------|----------------------------------|
| Application Notes: | WB 1:500-2000 ELISA 1:5000-20000 |
| Restrictions:      | For Research Use only            |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid form in PBS containing 50 % glycerol, and 0.02 % sodium azide.                                                  |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
