

Datasheet for ABIN6389501  
**anti-Cullin 4A antibody (AA 590-670)**

[Go to Product page](#)

## Overview

|                      |                                          |
|----------------------|------------------------------------------|
| Quantity:            | 100 µL                                   |
| Target:              | Cullin 4A (CUL4A)                        |
| Binding Specificity: | AA 590-670                               |
| Reactivity:          | Human, Mouse                             |
| Host:                | Rabbit                                   |
| Clonality:           | Polyclonal                               |
| Conjugate:           | This Cullin 4A antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA             |

## Product Details

|               |                                                                                                                         |
|---------------|-------------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Unconjugated Rabbit polyclonal to CUL4A                                                                                 |
| Immunogen:    | Synthesized peptide derived from human CUL4A protein.                                                                   |
| Isotype:      | IgG                                                                                                                     |
| Specificity:  | CUL4A Polyclonal Antibody detects endogenous levels of protein.                                                         |
| Purification: | CUL4A antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Cullin 4A (CUL4A)                        |
| Alternative Name: | CUL4A ( <a href="#">CUL4A Products</a> ) |

Target Details

|                   |                        |
|-------------------|------------------------|
| Molecular Weight: | 83 kDa                 |
| Gene ID:          | 8451                   |
| UniProt:          | <a href="#">Q13619</a> |

Application Details

|                    |                                  |
|--------------------|----------------------------------|
| Application Notes: | WB 1:500-2000 ELISA 1:5000-20000 |
| Restrictions:      | For Research Use only            |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid form in PBS containing 50 % glycerol, and 0.02 % sodium azide.                                                  |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
