Datasheet for ABIN639584

anti-Schistosoma Mansoni antibody

Overview

Quantity:	0.2 mg
Target:	Schistosoma Mansoni
Reactivity:	Schistosoma mansoni
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Schistosoma Mansoni antibody is un-conjugated
Application:	Immunofluorescence (IF), ELISA

Product Details

Purpose:	Mouse Anti-S. mansoni
Purification:	Purified

Target Details

Target:	Schistosoma Mansoni
Abstract:	Schistosoma Mansoni Products
Target Type:	Species

Application Details

Application Notes:	ELISA, Immunofluorescence
Restrictions:	For Research Use only

Handling

Storage: -20 °C

Storage Comment: -20°C
