Datasheet for ABIN654547  
**anti-NKAPL antibody (C-Term)**

1 Image

Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 400 µL                               |
| Target:              | NKAPL                                |
| Binding Specificity: | AA 267-296, C-Term                   |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This NKAPL antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

Product Details

|               |                                                                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | This NKAPL antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 267-296 amino acids from the C-terminal region of human NKAPL. |
| Clone:        | RB27883                                                                                                                                                                |
| Isotype:      | Ig Fraction                                                                                                                                                            |
| Purification: | This antibody is purified through a protein A column, followed by peptide affinity purification.                                                                       |

Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | NKAPL                                    |
| Alternative Name: | NKAPL ( <a href="#">NKAPL Products</a> ) |
| Background:       | The function of NKAPL remains unknown.   |

## Target Details

|                   |                              |
|-------------------|------------------------------|
| Molecular Weight: | 46312                        |
| Gene ID:          | 222698                       |
| NCBI Accession:   | <a href="#">NP_001007532</a> |
| UniProt:          | <a href="#">Q5M9Q1</a>       |

## Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | WB: 1:1000            |
| Restrictions:      | For Research Use only |

## Handling

|                    |                                                                                                                                            |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                     |
| Buffer:            | Purified polyclonal antibody supplied in PBS with 0.09 % (W/V) sodium azide.                                                               |
| Preservative:      | Sodium azide                                                                                                                               |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                     |
| Storage:           | 4 °C,-20 °C                                                                                                                                |
| Storage Comment:   | Maintain refrigerated at 2-8 °C for up to 6 months. For long term storage store at -20 °C in small aliquots to prevent freeze-thaw cycles. |
| Expiry Date:       | 6 months                                                                                                                                   |
