## anti-Cyclin H antibody (N-Term)

| $\sim$ |       |
|--------|-------|
| ( )\/⊝ | rview |
| 0 1 0  | VICVV |

| Quantity:             | 400 μL  |
|-----------------------|---|
| Target:               | Cyclin H (CCNH)   |
| Binding Specificity:  | AA 24-52, N-Term  |
| Reactivity:           | Mouse   |
| Host:                 | Rabbit  |
| Clonality:            | Polyclonal  |
| Conjugate:            | This Cyclin H antibody is un-conjugated   |
| Application:          | Western Blotting (WB), Flow Cytometry (FACS)  |
| Product Details       |   |
| Immunogen:            | This CCNH antibody is generated from rabbits immunized with a KLH conjugated synthetic                        |
|                       | peptide between 24-52 amino acids from the N-terminal region of human CCNH.                                   |
| Clone:                | RB14999   |
| Isotype:              | Ig Fraction   |
| Predicted Reactivity: | B, Pr   |
| Purification:         | This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. |
| Target Details        |   |
| Target:               | Cyclin H (CCNH)   |
|                       |   |

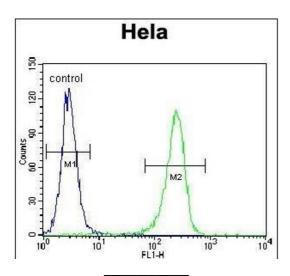

### **Target Details**

| Alternative Name:   | CCNH (CCNH Products)   |
|---------------------|--|
| Background:         | The protein encoded by this gene belongs to the highly conserved cyclin family, whose            |
|                     | members are characterized by a dramatic periodicity in protein abundance through the cell        |
|                     | cycle. Cyclins function as regulators of CDK kinases. Different cyclins exhibit distinct         |
|                     | expression and degradation patterns which contribute to the temporal coordination of each        |
|                     | mitotic event. This cyclin forms a complex with CDK7 kinase and ring finger protein MAT1. The    |
|                     | kinase complex is able to phosphorylate CDK2 and CDC2 kinases, thus functions as a CDK-          |
|                     | activating kinase (CAK). This cyclin and its kinase partner are components of TFIIH, as well as  |
|                     | RNA polymerase II protein complexes. They participate in two different transcriptional           |
|                     | regulation processes, suggesting an important link between basal transcription control and the   |
|                     | cell cycle machinery. A pseudogene of this gene is found on chromosome 4. Alternate splicing     |
|                     | results in multiple transcript variants.   |
| Molecular Weight:   | 37643  |
| Gene ID:            | 902  |
| NCBI Accession:     | NP_001230  |
| UniProt:            | P51946   |
| Pathways:           | Cell Division Cycle, Mitotic G1-G1/S Phases, M Phase   |
| Application Details |  |
| Application Notes:  | WB: 1:1000. FC: 1:10~50  |
| Restrictions:       | For Research Use only  |
| Handling            |  |
| Format:             | Liquid   |
| Buffer:             | Purified polyclonal antibody supplied in PBS with 0.09 % (W/V) sodium azide.                     |
| Preservative:       | Sodium azide   |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which                    |
|                     | should be handled by trained staff only.   |
| Storage:            | 4 °C,-20 °C  |
| Storage Comment:    | Maintain refrigerated at 2-8 °C for up to 6 months. For long term storage store at -20 °C in sma |
|                     | aliquots to prevent freeze-thaw cycles.  |

Expiry Date:

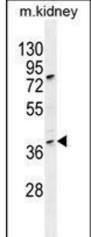

6 months

#### **Images**

#### **Flow Cytometry**

**Image 1.** CCNH Antibody (N-term) (ABIN655160 and ABIN2844778) flow cytometric analysis of Hela cells (right histogram) compared to a negative control cell (left histogram).FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

#### **Western Blotting**

**Image 2.** CCNH Antibody (N-term) (ABIN655160 and ABIN2844778) western blot analysis in mouse kidney tissue lysates (35  $\mu$ g/lane). This demonstrates the CCNH antibody detected the CCNH protein (arrow).
