Immunohistochemistry (Paraffin-embedded Sections)

Image 1. NFKBID Antibody (N-term) (ABIN655836 and ABIN2845251) immunohistochemistry analysis in formalin fixed and paraffin embedded human thyroid tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of NFKBID Antibody (N-term) for immunohistochemistry. Clinical relevance has not been evaluated.

Western Blotting
