Immunohistochemistry (Paraffin-embedded Sections)

Image 1. ATG9B Antibody (C-term) (ABIN657572 and ABIN2846578) immunohistochemistry analysis in formalin fixed and paraffin embedded human pancreas tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of ATG9B Antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.

Western Blotting
