

Datasheet for ABIN6579479  
**anti-LILRA4 antibody (AA 391-440)**

[Go to Product page](#)

## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µL                                |
| Target:              | LILRA4                                |
| Binding Specificity: | AA 391-440                            |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This LILRA4 antibody is un-conjugated |
| Application:         | ELISA, Western Blotting (WB)          |

## Product Details

|               |                                                                                                          |
|---------------|----------------------------------------------------------------------------------------------------------|
| Immunogen:    | The antiserum was produced against synthesized peptide derived from the Internal region of human LILRA4. |
| Isotype:      | IgG                                                                                                      |
| Specificity:  | LILRA4 Antibody detects endogenous levels of LILRA4 protein.                                             |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using peptide.       |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | LILRA4                                     |
| Alternative Name: | LILRA4 ( <a href="#">LILRA4 Products</a> ) |

## Target Details

|                   |                                                                                                                                                                                                    |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background:       | Synonyms: LILRA4, ILT7, Leukocyte immunoglobulin-like receptor subfamily A member 4, CD85 antigen-like family member G, Immunoglobulin-like transcript 7, ILT-7, CD85g<br>NCBI Gene Symbol: LILRA4 |
| Molecular Weight: | 55 kDa                                                                                                                                                                                             |
| Gene ID:          | 23547                                                                                                                                                                                              |
| UniProt:          | <a href="#">P59901</a>                                                                                                                                                                             |

## Application Details

|                    |                                 |
|--------------------|---------------------------------|
| Application Notes: | WB: 1:500~1:1000 ELISA: 1:10000 |
| Restrictions:      | For Research Use only           |

## Handling

|                  |                                                                                                                |
|------------------|----------------------------------------------------------------------------------------------------------------|
| Concentration:   | 1 mg/mL                                                                                                        |
| Buffer:          | phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol. |
| Storage:         | -20 °C                                                                                                         |
| Storage Comment: | Stable at -20°C for at least 1 year.                                                                           |
