## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µL                              |
| Target:              | GMFB                                |
| Binding Specificity: | AA 1-50                             |
| Reactivity:          | Human, Mouse, Rat                   |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This GMFB antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA        |

## Product Details

|               |                                                                                                                     |
|---------------|---------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | The antiserum was produced against synthesized peptide derived from the Internal region of human GMFB.              |
| Isotype:      | IgG                                                                                                                 |
| Specificity:  | GMFB Antibody detects endogenous levels of GMFB protein.                                                            |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific peptide. |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | GMFB                                   |
| Alternative Name: | GMFB ( <a href="#">GMFB Products</a> ) |

## Target Details

|                   |                                                                                 |
|-------------------|---------------------------------------------------------------------------------|
| Background:       | Synonyms: GMFB, Glia maturation factor beta, GMF-beta<br>NCBI Gene Symbol: GMFB |
| Molecular Weight: | 16 kDa                                                                          |
| Gene ID:          | 2764                                                                            |
| OMIM:             | 601713                                                                          |
| UniProt:          | <a href="#">P60983</a>                                                          |

## Application Details

|                    |                                 |
|--------------------|---------------------------------|
| Application Notes: | WB: 1:500~1:1000 ELISA: 1:10000 |
| Restrictions:      | For Research Use only           |

## Handling

|                  |                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Concentration:   | 1 mg/mL                                                                                                                                 |
| Buffer:          | phosphate buffered saline (without Mg <sup>2+</sup> and Ca <sup>2+</sup> ), pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol. |
| Storage:         | -20 °C                                                                                                                                  |
| Storage Comment: | Store at -20°C/1 year                                                                                                                   |
