

Datasheet for ABIN668423

**anti-DR3/LARD antibody (AA 351-417) (Biotin)**[Go to Product page](#)

## Overview

|                      |                                                                                                                                                  |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                                           |
| Target:              | DR3/LARD (TNFRSF25)                                                                                                                              |
| Binding Specificity: | AA 351-417                                                                                                                                       |
| Reactivity:          | Human, Mouse, Rat                                                                                                                                |
| Host:                | Rabbit                                                                                                                                           |
| Clonality:           | Polyclonal                                                                                                                                       |
| Conjugate:           | This DR3/LARD antibody is conjugated to Biotin                                                                                                   |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)),<br>Immunohistochemistry (Frozen Sections) (IHC (fro)) |

## Product Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Immunogen:        | KLH conjugated synthetic peptide derived from human DR3 |
| Isotype:          | IgG                                                     |
| Cross-Reactivity: | Human, Mouse, Rat                                       |
| Purification:     | Purified by Protein A.                                  |

## Target Details

|                   |                                                                                       |
|-------------------|---------------------------------------------------------------------------------------|
| Target:           | DR3/LARD (TNFRSF25)                                                                   |
| Alternative Name: | DR3 ( <a href="#">TNFRSF25 Products</a> )                                             |
| Background:       | Synonyms: DR3, TR3, DDR3, LARD, APO-3, TRAMP, WSL-1, WSL-LR, TNFRSF12, Tumor necrosis |

## Target Details

factor receptor superfamily member 25, Apoptosis-inducing receptor AIR, Apoptosis-mediating receptor DR3, Apoptosis-mediating receptor TRAMP, Death receptor 3, Lymphocyte-associated receptor of death, Protein WSL, Protein WSL-1, TNFRSF25, APO3, WSL, WSL1, UNQ455/PRO779

Background: Receptor for TNFSF12/APO3L/TWEAK. Interacts directly with the adapter TRADD. Mediates activation of NF-kappa-B and induces apoptosis. May play a role in regulating lymphocyte homeostasis.

Gene ID: 8718

UniProt: [Q93038](#)

Pathways: [Apoptosis](#)

## Application Details

Application Notes: WB 1:300-5000  
IHC-P 1:200-400  
IHC-F 1:100-500

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C for 12 months.

Expiry Date: 12 months
