

Datasheet for ABIN6698963 Goat anti-Human IgM (Chain mu) Antibody (DyLight 800) -Preadsorbed

Overview

| Quantity: | 100 µg |
|----------------------|------------------------------------------------------------|
| Target: | IgM |
| Binding Specificity: | Chain mu |
| Reactivity: | Human |
| Host: | Goat |
| Clonality: | Polyclonal |
| Conjugate: | DyLight 800 |
| Application: | Western Blotting (WB), FLISA, Fluorescence Microscopy (FM) |

Product Details

| Immunogen: | Immunogen: Human IgM whole molecule |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype: | lgG |
| Characteristics: | Synonyms: Goat Anti-Human IgM (mu chain) Antibody DyLight [™] 800 Conjugated, Goat Anti Human IgM (mu chain) Antibody DyLight [™] 800 Conjugated Background: Anti-Human IgM (mu heavy chain) DyLight 800 generated in goat detects specifically Human IgM mu heavy chain. Immunoglobulin M is the largest antibody isotype and the first to be secreted against an initial exposure to antigen. IgM is predominantly produced in the spleen. Formed from covalently linking 5 immunoglobulins together. Anti-Human IgM mu chain antibody is ideal for investigators in Immunology, Microbiology, and Cell Biology. |
| Purification: | Preadsorption: Solid phase absorption |
| Labeling Ratio: | 2.4 |

| Target Details | |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target: | IgM |
| Abstract: | IgM Products |
| Target Type: | Antibody |
| Application Details | |
| Application Notes: | Application Note: The emission spectra for this DyLight [™] conjugate match the principle output wavelengths of most common fluorescence instrumentation. Anti-Human IgM (mu heavy chain) DyLight 800 is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms. FLISA Dilution: >1:20,000 Western Blot Dilution: >1:10,000 IF Microscopy Dilution: >1:5,000 |
| Restrictions: Handling | For Research Use only |
| Format: | Lyophilized |
| Reconstitution: | Reconstitution Volume: 100 µL Reconstitution Buffer: Restore with deionized water (or equivalent) |
| Buffer: | Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 Stabilizer: 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free 0.01 % (w/v) Sodium Azide |
| Preservative: | Sodium azide |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage: | RT,4 °C,-20 °C |
| Storage Comment: | Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use. |
| Expiry Date: | 12 months |
