|     |        |        |                     |   |

| Quantity:                   | 100 μg   |
|-----------------------------|--|
| Target:                     | ARID2  |
| Reactivity:                 | Human, Mouse, Rat  |
| Host:                       | Rabbit   |
| Clonality:                  | Polyclonal   |
| Application:                | Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |
| Product Details             |  |
| Purpose:                    | Rabbit IgG polyclonal antibody for ARID2 detection. Tested with WB, IHC-P in       |
|                             | Human,Mouse,Rat.   |
| Immunogen:                  | A synthetic peptide corresponding to a sequence of human ARID2                     |
|                             | (DERRKGLAFLDELRQFHHSR).  |
| Sequence:                   | DERRKGLAFL DELRQFHHSR  |
| Isotype:                    | IgG  |
| Cross-Reactivity (Details): | No cross reactivity with other proteins.   |
| Characteristics:            | Rabbit IgG polyclonal antibody for ARID2 detection. Tested with WB, IHC-P in       |
|                             | Human,Mouse,Rat.   |
| Purification:               | Immunogen affinity purified.   |
| Target Details              |  |
| Target:                     | ARID2  |
|                             |  |

## Target Details

| Alternative Name:   | ARID2 (ARID2 Products)   |  |
|---------------------|--|--|
| Background:         | Synonyms: AT-rich interactive domain-containing protein 2, ARID domain-containing protein 2, BRG1-associated factor 200, BAF200, Zinc finger protein with activation potential, Zipzap/p200, ARID2, BAF200, KIAA1557 |  |
|                     | Background: AT-rich interactive domain-containing protein 2 (ARID2) is a protein that in   |  |
|                     | humans is encoded by the ARID2 gene. It is mapped to 12q12. This gene encodes a member of  |  |
|                     | the AT-rich interactive domain (ARID)-containing family of DNA-binding proteins. Members of  |  |
|                     | the ARID family have roles in embryonic patterning, cell lineage gene regulation, cell cycle   |  |
|                     | control, transcriptional regulation and chromatin structure modification. This protein functions   |  |
|                     | as a subunit of the polybromo- and BRG1-associated factor or PBAF (SWI/SNF-B) chromatin  |  |
|                     | remodeling complex which facilitates ligand-dependent transcriptional activation by nuclear  |  |
|                     | receptors. Mutations in this gene are associated with hepatocellular carcinomas. A pseudogene  |  |
|                     | of this gene is found on chromosome1.  |  |
| Gene ID:            | 196528   |  |
| Application Details |  |  |
| Application Notes:  | Application details: Western blot 0.1-0.5 µg/mL Immunohistochemistry(Paraffin-embedded Section) 0.5-1 µg/mL  |  |
| Comment:            | Tested Species: In-house tested species with positive results. By Heat: Boiling the paraffin   |  |
|                     | sections in 10mM citrate buffer, pH6.0, for 20mins is required for the staining of   |  |
|                     | formalin/paraffin sections. Other applications have not been tested. Optimal dilutions should be determined by end users.  |  |
| Restrictions:       | For Research Use only  |  |
| Handling            |  |  |
| Format:             | Lyophilized  |  |
| Reconstitution:     | Add 0.2 mL of distilled water will yield a concentration of 500 µg/mL.   |  |
| Buffer:             | Each vial contains 4 mg Trehalose, 0.9 mg NaCl, 0.2 mg Na2HPO4, 0.05 mg Sodium azide.  |  |
| Preservative:       | Sodium azide   |  |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which  |  |
|                     | should be handled by trained staff only.   |  |
| Storage:            | 4 °C,-20 °C  |  |

#### Handling

Storage Comment:

At -20°C for one year. After reconstitution, at 4°C for one month.

It can also be aliquotted and stored frozen at -20  $^{\circ}$ C for a longer time. Avoid repeated freezing and thawing.
