OVEIVIEW		
Quantity:	100 μg	
Target:	Grancalcin (GCA)	
Binding Specificity:	AA 42-217	
Reactivity:	Human, Mouse, Rat	
Host:	Rabbit	
Clonality:	Polyclonal	
Application:	Western Blotting (WB), ELISA	
Product Details		
Purpose:	Rabbit IgG polyclonal antibody for Grancalcin/GCA detection. Tested with WB, Direct ELISA in Human, Mouse, Rat.	
Immunogen:	E. coli-derived human Grancalcin/GCA recombinant protein (Position: A42-I217).	
Isotype:	IgG	
Cross-Reactivity (Details):	No cross reactivity with other proteins.	
Characteristics:	Rabbit IgG polyclonal antibody for Grancalcin/GCA detection. Tested with WB, Direct ELISA in Human, Mouse, Rat.	
Purification:	Immunogen affinity purified.	
Target Details		
Target:	Grancalcin (GCA)	

Target Details

Alternative Name:	GCA (GCA Products)		
Background:	Synonyms: Grancalcin, GCA, GCL		
	Background: Grancalcin is a protein that in humans is encoded by the GCA gene. This gene is		
	mapped to 2q24.2. This gene product, grancalcin, is a calcium-binding protein abundant in		
	neutrophils and macrophages. It belongs to the penta-EF-hand subfamily of proteins which		
	includes sorcin, calpain, and ALG-2. Grancalcin localization is dependent upon calcium and		
	magnesium. In the absence of divalent cation, grancalcin localizes to the cytosolic fraction, with		
	magnesium alone, it partitions with the granule fraction, and in the presence of magnesium and		
	calcium, it associates with both the granule and membrane fractions, suggesting a role for		
	grancalcin in granule-membrane fusion and degranulation.		
Gene ID:	25801		
UniProt:	P28676		
Application Details			
Application Notes:	Application details: Western blot 0.1-0.5 μg/mL Direct ELISA 0.1-0.5 μg/mL		
Comment:	Tested Species: In-house tested species with positive results. Other applications have not been		
	tested. Optimal dilutions should be determined by end users.		
Restrictions:	For Research Use only		
Handling			
Format:	Lyophilized		
Reconstitution:	Add 0.2 mL of distilled water will yield a concentration of 500 μg/mL.		
Buffer:	Each vial contains 4 mg Trehalose, 0.9 mg NaCl, 0.2 mg Na2HPO4, 0.05 mg Sodium azide.		
Preservative:	Sodium azide		
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which		
	should be handled by trained staff only.		
Storage:	4 °C,-20 °C		
Storage Comment:	At -20°C for one year. After reconstitution, at 4°C for one month.		
	It can also be aliquotted and stored frozen at -20 °C for a longer time. Avoid repeated freezing		
	and thawing.
