Datasheet for ABIN6736640  
**anti-LRP2BP antibody (AA 151-200)**

1 Image

Overview

|                      |                                                                           |
|----------------------|---------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                    |
| Target:              | LRP2BP                                                                    |
| Binding Specificity: | AA 151-200                                                                |
| Reactivity:          | Human, Rat, Dog, Mouse, Cow, Horse, Rabbit, Guinea Pig, Pig, Bat, Chicken |
| Host:                | Rabbit                                                                    |
| Clonality:           | Polyclonal                                                                |
| Conjugate:           | This LRP2BP antibody is un-conjugated                                     |
| Application:         | Western Blotting (WB)                                                     |

Product Details

|                       |                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:            | Synthetic peptide located between aa151-200 of human LRP2BP (A6NJR7, NP_060879).<br>Percent identity by BLAST analysis: Human, Chimpanzee, Gorilla, Monkey, Galago, Mouse, Rat, Elephant, Dog, Bovine, Bat, Rabbit, Horse, Pig, Guinea pig, Chicken, Platypus (100%), Gibbon, Marmoset, Opossum, Zebra finch, Lizard, Xenopus, Zebrafish (92%), Turkey (85%).<br><br>Type of Immunogen: Synthetic peptide |
| Isotype:              | IgG                                                                                                                                                                                                                                                                                                                                                                                                       |
| Specificity:          | Human LRP2BP                                                                                                                                                                                                                                                                                                                                                                                              |
| Predicted Reactivity: | Percent identity by BLAST analysis: Human, Mouse, Rat, Dog, Bovine, Rabbit, Horse, Pig, Chicken (100%).                                                                                                                                                                                                                                                                                                   |
| Purification:         | Immunoaffinity purified                                                                                                                                                                                                                                                                                                                                                                                   |

## Target Details

---

|                   |                                                                                                                                    |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | LRP2BP                                                                                                                             |
| Alternative Name: | LRP2BP / LRP2 Binding Protein ( <a href="#">LRP2BP Products</a> )                                                                  |
| Background:       | Name/Gene ID: LRP2BP<br><br>Synonyms: LRP2BP, MegBP, LRP2 binding protein, Megalin-binding protein, KIAA1325, LRP2-binding protein |
| Gene ID:          | 55805                                                                                                                              |
| NCBI Accession:   | <a href="#">NP_060879</a>                                                                                                          |
| UniProt:          | <a href="#">Q9P2M1</a>                                                                                                             |

## Application Details

---

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: WB (0.2 - 1 µg/mL)      |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

## Handling

---

|                  |                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                             |
| Reconstitution:  | After adding water, will consist of PBS buffer with 2 % sucrose                                                                                                                         |
| Concentration:   | Lot specific                                                                                                                                                                            |
| Buffer:          | Lyophilized from PBS with 2 % sucrose                                                                                                                                                   |
| Storage:         | 4 °C, -20 °C                                                                                                                                                                            |
| Storage Comment: | Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)<br>Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles. |
