Datasheet for ABIN6741427  
**anti-TRIM15 antibody (AA 288-337)**

1 Image

Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µL                                |
| Target:              | TRIM15                                |
| Binding Specificity: | AA 288-337                            |
| Reactivity:          | Human, Cow, Pig                       |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This TRIM15 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                 |

Product Details

|                       |                                                                                                                                                                                                                                                                   |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:            | Synthetic peptide located between aa288-337 of human TRIM15 (Q9C019, NP_150232).<br>Percent identity by BLAST analysis: Human (100%), Chimpanzee, Gorilla, Gibbon, Monkey, Rabbit (92%), Elephant, Bovine, Pig (85%).<br><br>Type of Immunogen: Synthetic peptide |
| Isotype:              | IgG                                                                                                                                                                                                                                                               |
| Specificity:          | Human TRIM15                                                                                                                                                                                                                                                      |
| Predicted Reactivity: | Percent identity by BLAST analysis: Human (100%) Bovine, Pig (85%).                                                                                                                                                                                               |
| Purification:         | Immunoaffinity purified                                                                                                                                                                                                                                           |

## Target Details

---

|                   |                                                                                                                                                                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | TRIM15                                                                                                                                                                                                                                  |
| Alternative Name: | TRIM15 / RNF93 ( <a href="#">TRIM15 Products</a> )                                                                                                                                                                                      |
| Background:       | Name/Gene ID: TRIM15<br>Family: Tripartite Motif<br><br>Synonyms: TRIM15, RING finger protein 93, Tripartite motif containing 15, Zinc finger protein 178, Zinc finger protein B7, Tripartite motif-containing 15, ZNFB7, RNF93, ZNF178 |
| NCBI Accession:   | <a href="#">NP_150232</a>                                                                                                                                                                                                               |

## Application Details

---

|                    |                                                                                                                                                                                                                                                                     |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: WB (0.2 - 1 µg/mL)<br><br>Usage: Western Blot: Suggested dilution at 1 µg/mL in 5 % skim milk / PBS buffer, and HRP conjugated anti-Rabbit IgG should be diluted in 1: 50,000 - 100,000 as second antibody. ELISA titer in peptide based assay: 1:312500. |
| Comment:           | Target Species of Antibody: Human                                                                                                                                                                                                                                   |
| Restrictions:      | For Research Use only                                                                                                                                                                                                                                               |

## Handling

---

|                  |                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                             |
| Reconstitution:  | Distilled water                                                                                                                                                                         |
| Concentration:   | Lot specific                                                                                                                                                                            |
| Buffer:          | Lyophilized from PBS with 2 % sucrose                                                                                                                                                   |
| Handling Advice: | Avoid repeat freeze-thaw cycles.                                                                                                                                                        |
| Storage:         | 4 °C, -20 °C                                                                                                                                                                            |
| Storage Comment: | Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)<br>Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles. |
