| Quantity:            | 100 μL                                                              |
|----------------------|---------------------------------------------------------------------|
| Target:              | SHC3                                                                |
| Binding Specificity: | AA 359-408                                                          |
| Reactivity:          | Human, Mouse, Rat, Cow, Rabbit, Dog, Guinea Pig, Horse, Monkey, Pig |
| Host:                | Rabbit                                                              |
| Clonality:           | Polyclonal                                                          |
| Conjugate:           | This SHC3 antibody is un-conjugated                                 |
| Application:         | Western Blotting (WB)                                               |

| Product Details       |                                                                                                                                                                                                                                                                                               |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:            | Synthetic peptide located between aa359-408 of human SHC3 (Q92529, NP_058544). Percent identity by BLAST analysis: Human, Chimpanzee, Gorilla, Gibbon, Monkey, Galago, Marmoset, Mouse, Rat, Elephant, Dog, Bovine, Rabbit, Horse, Pig, Opossum, Guinea pig (100%), Xenopus (90%), Bat (84%). |
|                       | Type of Immunogen: Synthetic peptide                                                                                                                                                                                                                                                          |
| Isotype:              | IgG                                                                                                                                                                                                                                                                                           |
| Specificity:          | Human SHC3                                                                                                                                                                                                                                                                                    |
| Predicted Reactivity: | Percent identity by BLAST analysis: Human, Mouse, Rat, Dog, Bovine, Rabbit, Horse, Pig, Guinea pig (100%).                                                                                                                                                                                    |
| Purification:         | Immunoaffinity purified                                                                                                                                                                                                                                                                       |

## Target Details

| Target:             | SHC3                                                                                                                                                                                                                                  |

| Alternative Name:   | SHC3 / SHCC (SHC3 Products)                                                                                                                                                                                                           |
| Background:         | Name/Gene ID: SHC3                                                                                                                                                                                                                    |
|                     | Synonyms: SHC3, Neuronal Shc, NSHC, RAI, SH2 domain protein C3, SHC-transforming protein C, N-Shc, p52 and p64 isoforms of n-shc, Protein Rai, SHC-transforming protein 3, SHCC                                                       |
| Gene ID:            | 53358                                                                                                                                                                                                                                 |
| NCBI Accession:     | NP_058544                                                                                                                                                                                                                             |
| UniProt:            | Q92529                                                                                                                                                                                                                                |
| Pathways:           | RTK Signaling, EGFR Signaling Pathway, Neurotrophin Signaling Pathway                                                                                                                                                                 |
| Application Details |                                                                                                                                                                                                                                       |
| Application Notes:  | Approved: WB (0.2 - 1 μg/mL)                                                                                                                                                                                                          |
|                     | Usage: Western Blot: Suggested dilution at 1 $\mu$ g/mL in 5 % skim milk / PBS buffer, and HRP conjugated anti-Rabbit IgG should be diluted in 1: 50,000 - 100,000 as second antibody. ELISA titer in peptide based assay: 1:1562500. |
| Comment:            | Target Species of Antibody: Human                                                                                                                                                                                                     |
| Restrictions:       | For Research Use only                                                                                                                                                                                                                 |
| Handling            |                                                                                                                                                                                                                                       |
| Format:             | Lyophilized                                                                                                                                                                                                                           |
| Reconstitution:     | Distilled water                                                                                                                                                                                                                       |
| Concentration:      | Lot specific                                                                                                                                                                                                                          |
| Buffer:             | Lyophilized from PBS with 2 % sucrose                                                                                                                                                                                                 |
| Handling Advice:    | Avoid repeat freeze-thaw cycles.                                                                                                                                                                                                      |
| Storage:            | 4 °C,-20 °C                                                                                                                                                                                                                           |
| Storage Comment:    | Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)  Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles.                                                 |
