

## Datasheet for ABIN6745862 **anti-MTA2 antibody**

[Go to Product page](#)

### Overview

|              |                                     |
|--------------|-------------------------------------|
| Quantity:    | 100 µg                              |
| Target:      | MTA2                                |
| Reactivity:  | Human                               |
| Host:        | Mouse                               |
| Clonality:   | Monoclonal                          |
| Conjugate:   | This MTA2 antibody is un-conjugated |
| Application: | Western Blotting (WB)               |

### Product Details

|               |                                                                     |
|---------------|---------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide corresponding to the middle region of human MTA2. |
|               | Type of Immunogen: Synthetic peptide                                |
| Isotype:      | IgG1                                                                |
| Specificity:  | Recognizes human MTA2.                                              |
| Purification: | Protein G purified                                                  |

### Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | MTA2                                   |
| Alternative Name: | MTA2 ( <a href="#">MTA2 Products</a> ) |
| Background:       | Name/Gene ID: MTA2                     |

## Target Details

|           |                                                                                       |
|-----------|---------------------------------------------------------------------------------------|
|           | Synonyms: MTA2, Metastasis-associated 1-like 1, MTA1L1, PID, MTA1-L1, MTA1-L1 protein |
| Gene ID:  | 9219                                                                                  |
| UniProt:  | <a href="#">O94776</a>                                                                |
| Pathways: | <a href="#">Chromatin Binding</a>                                                     |

## Application Details

|                    |                                          |
|--------------------|------------------------------------------|
| Application Notes: | Approved: WB                             |
|                    | Usage: Suitable for use in Western Blot. |
| Comment:           | Target Species of Antibody: Human        |
| Restrictions:      | For Research Use only                    |

## Handling

|                    |                                                                                                                                                                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                                                                        |
| Concentration:     | Lot specific                                                                                                                                                                                                  |
| Buffer:            | PBS, pH 7.4, 1 % BSA, 0.05 % sodium azide                                                                                                                                                                     |
| Preservative:      | Sodium azide                                                                                                                                                                                                  |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                                                                        |
| Handling Advice:   | Avoid repeated freezing and thawing                                                                                                                                                                           |
| Storage:           | 4 °C, -20 °C                                                                                                                                                                                                  |
| Storage Comment:   | May be stored at 4°C for short-term only. For long-term storage and to avoid freeze-thaw cycles, add sterile glycerol (40-50%), aliquot and store at -20°C. Aliquots are stable for at least 1 year at -20°C. |
