## Overview

|              |                                          |
|--------------|------------------------------------------|
| Quantity:    | 100 µg                                   |
| Target:      | PPIG                                     |
| Reactivity:  | Human                                    |
| Host:        | Rabbit                                   |
| Clonality:   | Polyclonal                               |
| Conjugate:   | This PPIG antibody is conjugated to FITC |
| Application: | Western Blotting (WB), ELISA             |

## Product Details

|               |                                                                                          |
|---------------|------------------------------------------------------------------------------------------|
| Immunogen:    | Recombinant corresponding to human Cyclophilin G.<br>Immunogen type: Recombinant protein |
| Isotype:      | IgG                                                                                      |
| Specificity:  | Human Cyclophilin G.                                                                     |
| Purification: | Ammonium sulfate precipitation                                                           |

## Target Details

|                   |                                                                                                                                                                                              |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | PPIG                                                                                                                                                                                         |
| Alternative Name: | PPIG / Cyclophilin G ( <a href="#">PPIG Products</a> )                                                                                                                                       |
| Background:       | Synonyms :<br>PPIG, CARS-Cyp, CARS-cyclophilin, CYP, Cyclophilin G, Clk-associating RS-cyclophilin, SCAF10, SR-cyclophilin, PPIase G, SRCyp, Peptidyl-prolyl isomerase G, Rotamase G, SR-cyp |

### Target Details

|          |                        |
|----------|------------------------|
| Gene ID: | 9360                   |
| UniProt: | <a href="#">Q13427</a> |

### Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | ELISA, WB             |
| Restrictions:      | For Research Use only |

### Handling

|                  |                                                                     |
|------------------|---------------------------------------------------------------------|
| Buffer:          | 10 mM PBS, PH 7.4, 0.03 % Proclin 300, 50 % glycerol                |
| Preservative:    | ProClin                                                             |
| Handling Advice: | Aliquot to avoid repeated freezing and thawing. Protect from light. |
| Storage:         | 4 °C/-20 °C                                                         |
| Storage Comment: | May be stored at 4 °C for short-term only.                          |
| Expiry Date:     | 12 months                                                           |
