## Overview

|                      |                                    |
|----------------------|------------------------------------|
| Quantity:            | 100 µL                             |
| Target:              | MKX                                |
| Binding Specificity: | AA 257-306                         |
| Reactivity:          | Human, Mouse                       |
| Host:                | Rabbit                             |
| Clonality:           | Polyclonal                         |
| Conjugate:           | This MKX antibody is un-conjugated |
| Application:         | Western Blotting (WB)              |

## Product Details

|               |                                                                                                                                                                                                       |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide located between aa257-306 of mouse Mxk (Q8BIA3, NP_808263). Percent identity by BLAST analysis: Mouse (100%), Hamster (91%), Rat (76%).<br><br>Type of Immunogen: Synthetic peptide |
| Specificity:  | Mouse MKX                                                                                                                                                                                             |
| Purification: | Immunoaffinity purified                                                                                                                                                                               |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | MKX                                  |
| Alternative Name: | MKX ( <a href="#">MKX Products</a> ) |
| Background:       | Name/Gene ID: MKX                    |

## Target Details

Synonyms: MKX, Homeobox protein Mohawk, IFRX, Mohawk homeobox, C10orf48, IRXL1

Gene ID: 283078

NCBI Accession: [NP\\_808263](#)

UniProt: [Q8IYA7](#)

Pathways: [Regulation of Muscle Cell Differentiation, Skeletal Muscle Fiber Development](#)

## Application Details

Application Notes: Approved: WB (1 µg/mL)

Comment: Target Species of Antibody: Mouse

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Reconstitution: Distilled water

Concentration: Lot specific

Buffer: Lyophilized from PBS, 2 % sucrose.

Storage: 4 °C,-20 °C

Storage Comment: Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)  
Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles.
