## Overview

|                      |                                                                              |
|----------------------|------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                       |
| Target:              | NRBP1                                                                        |
| Binding Specificity: | C-Term                                                                       |
| Reactivity:          | Human, Mouse, Rat, Monkey, Dog, Cow, Horse, Rabbit, Guinea Pig, Hamster, Bat |
| Host:                | Rabbit                                                                       |
| Clonality:           | Polyclonal                                                                   |
| Conjugate:           | This NRBP1 antibody is un-conjugated                                         |
| Application:         | Western Blotting (WB)                                                        |

## Product Details

|               |                                                                                                                                                                                                                                                                                                                                                                               |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide from C-Terminus of human NRBP1 (F8W6G1). Percent identity by BLAST analysis: Human, Chimpanzee, Gorilla, Orangutan, Gibbon, Monkey, Galago, Marmoset, Mouse, Rat, Hamster, Elephant, Panda, Dog, Bovine, Bat, Rabbit, Horse, Opossum, Guinea pig, Platypus (100%), Turkey, Zebra finch, Sparrow, Chicken (92%).<br><br>Type of Immunogen: Synthetic peptide |
| Specificity:  | Human NRBP1 / NRBP                                                                                                                                                                                                                                                                                                                                                            |
| Purification: | Immunoaffinity purified                                                                                                                                                                                                                                                                                                                                                       |

## Target Details

|         |       |
|---------|-------|
| Target: | NRBP1 |
|---------|-------|

## Target Details

|                   |                                                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------------------------|
| Alternative Name: | NRBP1 / NRBP ( <a href="#">NRBP1 Products</a> )                                                                    |
| Background:       | Name/Gene ID: NRBP1<br>Subfamily: NRBP<br>Family: Protein Kinase<br><br>Synonyms: NRBP1, MUDPNP, NRBP, BCON3, MADM |
| Gene ID:          | 29959                                                                                                              |
| UniProt:          | <a href="#">Q9UHY1</a>                                                                                             |
| Pathways:         | <a href="#">Nuclear Receptor Transcription Pathway</a>                                                             |

## Application Details

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: WB (1 µg/mL)            |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

## Handling

|                  |                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                             |
| Reconstitution:  | Distilled water                                                                                                                                                                         |
| Concentration:   | Lot specific                                                                                                                                                                            |
| Buffer:          | Lyophilized from PBS, 2 % sucrose.                                                                                                                                                      |
| Storage:         | 4 °C,-20 °C                                                                                                                                                                             |
| Storage Comment: | Long term: -20°C, the use of 50% glycerol is recommended if storing aliquots in -20°C for long term use (up to 1 year)<br>Short term (less than 1 week): 4°C. Avoid freeze-thaw cycles. |
