## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µL                              |
| Target:              | IdnK (IDNK)                         |
| Binding Specificity: | AA 121-170                          |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This IdnK antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|               |                                                                                                                                                                                 |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide located between aa121-170 of human IDNK (Q5T6J7-2). Percent identity by BLAST analysis: Human, Chimpanzee (100%).<br><br>Type of Immunogen: Synthetic peptide |
| Specificity:  | Human IDNK                                                                                                                                                                      |
| Purification: | Immunoaffinity purified                                                                                                                                                         |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | IdnK (IDNK)                            |
| Alternative Name: | IDNK ( <a href="#">IDNK Products</a> ) |
| Background:       | Name/Gene ID: IDNK                     |

## Target Details

---

Synonyms: IDNK

Gene ID: 414328

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Reconstitution: Distilled water

Concentration: Lot specific

Buffer: Lyophilized from PBS, 2 % sucrose.

Storage: 4 °C,-20 °C

Storage Comment: Short term: 4°C  
Long term: -20°C.
