## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | CDK10                                |
| Binding Specificity: | AA 255-304                           |
| Reactivity:          | Human, Monkey                        |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This CDK10 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

## Product Details

|               |                                                                                                                                                                                             |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide located between aa255-304 of human CDK10 (Q15131). Percent identity by BLAST analysis: Human, Gorilla, Gibbon, Monkey (100%).<br><br>Type of Immunogen: Synthetic peptide |
| Specificity:  | Human CDK10                                                                                                                                                                                 |
| Purification: | Immunoaffinity purified                                                                                                                                                                     |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | CDK10                                    |
| Alternative Name: | CDK10 ( <a href="#">CDK10 Products</a> ) |
| Background:       | Name/Gene ID: CDK10                      |

## Target Details

|          |                                                                                   |
|----------|-----------------------------------------------------------------------------------|
|          | Subfamily: CDC2/CDK                                                               |
|          | Family: Protein Kinase                                                            |
|          | Synonyms: CDK10, CDC2-related protein kinase, Cyclin-dependent kinase 10, PISSLRE |
| Gene ID: | 8558                                                                              |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Target Species of Antibody: Human                                  |
| Restrictions:      | For Research Use only                                              |

## Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Lyophilized                          |
| Reconstitution:  | Distilled water                      |
| Concentration:   | Lot specific                         |
| Buffer:          | Lyophilized from PBS, 2 % sucrose.   |
| Storage:         | 4 °C,-20 °C                          |
| Storage Comment: | Short term: 4°C<br>Long term: -20°C. |
