## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 200 µL                                  |
| Target:              | FKRP                                    |
| Binding Specificity: | C-Term                                  |
| Reactivity:          | Human                                   |
| Host:                | Mouse                                   |
| Clonality:           | Monoclonal                              |
| Conjugate:           | This FKRP antibody is conjugated to HRP |
| Application:         | Western Blotting (WB), ELISA            |

## Product Details

|               |                                                                                                            |
|---------------|------------------------------------------------------------------------------------------------------------|
| Immunogen:    | KLH-conjugated synthetic peptide from the C-term region of human FKRP.<br>ImmunogenType: Synthetic peptide |
| Clone:        | 386CT13-1-9                                                                                                |
| Isotype:      | IgG1                                                                                                       |
| Specificity:  | Human                                                                                                      |
| Purification: | Protein G purified                                                                                         |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | FKRP                                   |
| Alternative Name: | FKRP ( <a href="#">FKRP Products</a> ) |

Target Details

|             |                                                                                                         |
|-------------|---------------------------------------------------------------------------------------------------------|
| Background: | Synonyms: FKRP, Fukutin related protein, Fukutin-related protein, MDC1C, MDDGB5, MDDGC5, LGMD2I, MDDGA5 |
| Gene ID:    | 79147                                                                                                   |
| Pathways:   | <a href="#">Regulation of Carbohydrate Metabolic Process</a>                                            |

Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

|                  |                                                                                                                                      |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                               |
| Buffer:          | PBS, pH 7.2. ()                                                                                                                      |
| Preservative:    | Without preservative                                                                                                                 |
| Storage:         | 4 °C                                                                                                                                 |
| Storage Comment: | May be stored at 4°C for short-term only. For long-term storage, store at -20°C. Aliquots are stable for at least 6 months at -20°C. |
