## Overview

|              |                                              |
|--------------|----------------------------------------------|
| Quantity:    | 100 µL                                       |
| Target:      | Resistin (RETN)                              |
| Reactivity:  | Human                                        |
| Host:        | Rabbit                                       |
| Clonality:   | Polyclonal                                   |
| Conjugate:   | This Resistin antibody is conjugated to FITC |
| Application: | Western Blotting (WB)                        |

## Product Details

|                       |                                                              |
|-----------------------|--------------------------------------------------------------|
| Immunogen:            | KLH conjugated synthetic peptide derived from human Resistin |
| Isotype:              | IgG                                                          |
| Cross-Reactivity:     | Human                                                        |
| Predicted Reactivity: | Dog                                                          |
| Purification:         | Purified by Protein A.                                       |

## Target Details

|                   |                                                                                                                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Resistin (RETN)                                                                                                                                                                         |
| Alternative Name: | Resistin ( <a href="#">RETN Products</a> )                                                                                                                                              |
| Background:       | Synonyms: Adipose tissue specic secretory factor, ADSF, C/EBP epsilon regulated myeloid specic secreted cysteine rich protein, C/EBP epsilon regulated myeloid specic secreted cysteine |

## Target Details

rich protein precursor 1 , Cysteine rich secreted protein A12 alpha like 2, Cysteine rich secreted protein FIZZ3, FIZZ 3, FIZZ3, Found in inflammatory zone 3, HXCP 1, HXCP1, Resistin delta2, RETN 1, RETN, RETN1, RSTN, XCP 1, XCP1.

Background: This gene belongs to the family defined by the mouse resistin-like genes. The characteristic feature of this family is the C-terminal stretch of 10 cys residues with identical spacing. The mouse homolog of this protein is secreted by adipocytes, and may be the hormone potentially linking obesity to type II diabetes. [provided by RefSeq]

Gene ID: 56729

Pathways: [Feeding Behaviour](#), [Smooth Muscle Cell Migration](#)

## Application Details

Application Notes: IF(IHC-P) 1:50-200

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.

Expiry Date: 12 months
