Target Details

Cyclin dependent kinase 10, Cyclin dependent kinase related protein, Cyclin-dependent kinase 10, PISSLRE, Serine/threonine protein kinase PISSLRE, Serine/threonine-protein kinase PISSLRE.

Background: The protein encoded by this gene belongs to the CDK subfamily of the Ser/Thr protein kinase family. The CDK subfamily members are highly similar to the gene products of *S. cerevisiae cdc28*, and *S. pombe cdc2*, and are known to be essential for cell cycle progression. This kinase has been shown to play a role in cellular proliferation and its function is limited to cell cycle G2-M phase. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq].
