

Datasheet for ABIN6809463

**anti-CKB antibody (AA 11-367) (FITC)**[Go to Product page](#)

## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 100 µL                                  |
| Target:              | CKB                                     |
| Binding Specificity: | AA 11-367                               |
| Reactivity:          | Rat                                     |
| Host:                | Mouse                                   |
| Clonality:           | Monoclonal                              |
| Conjugate:           | This CKB antibody is conjugated to FITC |
| Application:         | Western Blotting (WB)                   |

## Product Details

|               |                                                      |
|---------------|------------------------------------------------------|
| Immunogen:    | Recombinant CKB (Lys11-Leu367) expressed in E. coli. |
|               | Type of Immunogen: Recombinant protein               |
| Isotype:      | IgG                                                  |
| Specificity:  | Rat CKB / Creatine Kinase BB                         |
| Purification: | Affinity purified                                    |

## Target Details

|                   |                                                           |
|-------------------|-----------------------------------------------------------|
| Target:           | CKB                                                       |
| Alternative Name: | CKB / Creatine Kinase BB ( <a href="#">CKB Products</a> ) |

## Target Details

|             |                                                                                                                                                                          |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: CKB<br><br>Synonyms: CKB, CKBB, Creatine kinase-B, Creatine kinase, b chain, B-CK, Creatine kinase B chain, Creatine kinase B-type, Creatine kinase, brain |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|          |      |
|----------|------|
| Gene ID: | 1152 |
|----------|------|

## Application Details

|                    |                                                                                                                                                  |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: WB<br><br>Usage: The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested. |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|

|          |                                 |
|----------|---------------------------------|
| Comment: | Target Species of Antibody: Rat |
|----------|---------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|                |              |
|----------------|--------------|
| Concentration: | Lot specific |
|----------------|--------------|

|         |                                                  |
|---------|--------------------------------------------------|
| Buffer: | PBS, pH 7.4, 0.02 % sodium azide, 50 % glycerol. |
|---------|--------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|

|          |                    |
|----------|--------------------|
| Storage: | 4 °C,-20 °C,-80 °C |
|----------|--------------------|

|                  |                                                                                                                                                                                                    |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Store frozen product at or below -20°C. Thawed product may be stored for 2-4 weeks at 4°C. For optimal storage, aliquot to smaller portions and store at -20°C to -70°C. Avoid freeze-thaw cycles. |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
