### Overview

|              |                                                             |
|--------------|-------------------------------------------------------------|
| Quantity:    | 100 µL                                                      |
| Target:      | Neurogenin 2 (NEUROG2)                                      |
| Reactivity:  | Human                                                       |
| Host:        | Rabbit                                                      |
| Clonality:   | Polyclonal                                                  |
| Conjugate:   | This Neurogenin 2 antibody is conjugated to Alexa Fluor 488 |
| Application: | Please inquire                                              |

### Product Details

|                   |                             |
|-------------------|-----------------------------|
| Cross-Reactivity: | Human                       |
| Characteristics:  | NEUROG2 Conjugated Antibody |

### Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | Neurogenin 2 (NEUROG2)                       |
| Alternative Name: | NEUROG2 ( <a href="#">NEUROG2 Products</a> ) |

### Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF488 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
