## Recombinant anti-Neuropilin 1 antibody (Alexa Fluor 488)

[Go to Product page](#)

### Overview

|                |                                                             |
|----------------|-------------------------------------------------------------|
| Quantity:      | 100 µL                                                      |
| Target:        | Neuropilin 1 (NRP1)                                         |
| Reactivity:    | Human, Rat, Mouse                                           |
| Host:          | Rabbit                                                      |
| Antibody Type: | Recombinant Antibody                                        |
| Clonality:     | Monoclonal                                                  |
| Conjugate:     | This Neuropilin 1 antibody is conjugated to Alexa Fluor 488 |
| Application:   | Please inquire                                              |

### Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | Neuropilin-1 Conjugated Antibody    |

### Target Details

|                   |                                                                                                                                                                                                                                                                       |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Neuropilin 1 (NRP1)                                                                                                                                                                                                                                                   |
| Alternative Name: | Neuropilin-1 ( <a href="#">NRP1 Products</a> )                                                                                                                                                                                                                        |
| Pathways:         | <a href="#">Regulation of Cell Size</a> , <a href="#">Signaling Events mediated by VEGFR1 and VEGFR2</a> , <a href="#">Smooth Muscle Cell Migration</a> , <a href="#">Platelet-derived growth Factor Receptor Signaling</a> , <a href="#">VEGFR1 Specific Signals</a> |

Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF488 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
