

Datasheet for ABIN6815932

**anti-CDK9 antibody (pThr186) (Alexa Fluor 488)**[Go to Product page](#)

## Overview

|                      |                                                     |
|----------------------|-----------------------------------------------------|
| Quantity:            | 100 µL                                              |
| Target:              | CDK9                                                |
| Binding Specificity: | pThr186                                             |
| Reactivity:          | Human                                               |
| Host:                | Rabbit                                              |
| Clonality:           | Polyclonal                                          |
| Conjugate:           | This CDK9 antibody is conjugated to Alexa Fluor 488 |
| Application:         | Please inquire                                      |

## Product Details

|                   |                                                      |
|-------------------|------------------------------------------------------|
| Cross-Reactivity: | Human                                                |
| Characteristics:  | Cdk9 (Phospho-Thr186) Polyclonal Conjugated Antibody |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | CDK9                                   |
| Alternative Name: | Cdk9 ( <a href="#">CDK9 Products</a> ) |
| Pathways:         | <a href="#">Cell Division Cycle</a>    |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF488 conjugated: most applications: 1: 50 - 1: 250 |
|--------------------|-----------------------------------------------------|

Application Details

---

Restrictions: For Research Use only

Handling

---

Storage: 4 °C

---

Storage Comment: Store at 4°C for 6 months.
