

Datasheet for ABIN6818557

**Recombinant anti-TYROBP antibody (Alexa Fluor 488)**[Go to Product page](#)

## Overview

|                |                                                       |
|----------------|-------------------------------------------------------|
| Quantity:      | 100 µL                                                |
| Target:        | TYROBP                                                |
| Reactivity:    | Human                                                 |
| Host:          | Rabbit                                                |
| Antibody Type: | Recombinant Antibody                                  |
| Clonality:     | Monoclonal                                            |
| Conjugate:     | This TYROBP antibody is conjugated to Alexa Fluor 488 |
| Application:   | Please inquire                                        |

## Product Details

|                   |                           |
|-------------------|---------------------------|
| Cross-Reactivity: | Human                     |
| Characteristics:  | DAP12 Conjugated Antibody |

## Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | TYROBP                                    |
| Alternative Name: | DAP12 ( <a href="#">TYROBP Products</a> ) |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF488 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
