

Datasheet for ABIN6819780

anti-TANK antibody (Alexa Fluor 488)

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	TANK
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This TANK antibody is conjugated to Alexa Fluor 488
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	TANK Conjugated Antibody

Target Details

Target:	TANK
Alternative Name:	TANK (TANK Products)
Pathways:	p53 Signaling , TLR Signaling , Activation of Innate immune Response

Application Details

Application Notes:	AF488 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
