

Datasheet for ABIN6820544

**anti-PSMA5 antibody (Alexa Fluor 488)**[Go to Product page](#)

## Overview

|              |                                                      |
|--------------|------------------------------------------------------|
| Quantity:    | 100 µL                                               |
| Target:      | PSMA5                                                |
| Reactivity:  | Human, Mouse, Rat                                    |
| Host:        | Rabbit                                               |
| Clonality:   | Polyclonal                                           |
| Conjugate:   | This PSMA5 antibody is conjugated to Alexa Fluor 488 |
| Application: | Please inquire                                       |

## Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | PSMA5 Conjugated Antibody           |

## Target Details

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Target:           | PSMA5                                                                     |
| Alternative Name: | PSMA5 ( <a href="#">PSMA5 Products</a> )                                  |
| Pathways:         | <a href="#">Mitotic G1-G1/S Phases, DNA Replication, Synthesis of DNA</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF488 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
