## Recombinant anti-CEBPA antibody (Alexa Fluor 488)

[Go to Product page](#)

### Overview

|                |                                                      |
|----------------|------------------------------------------------------|
| Quantity:      | 100 µL                                               |
| Target:        | CEBPA                                                |
| Reactivity:    | Human, Mouse, Rat                                    |
| Host:          | Rabbit                                               |
| Antibody Type: | Recombinant Antibody                                 |
| Clonality:     | Monoclonal                                           |
| Conjugate:     | This CEBPA antibody is conjugated to Alexa Fluor 488 |
| Application:   | Please inquire                                       |

### Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | CEBP alpha Conjugated Antibody      |

### Target Details

|                   |                                                                                                                  |
|-------------------|------------------------------------------------------------------------------------------------------------------|
| Target:           | CEBPA                                                                                                            |
| Alternative Name: | CEBP alpha ( <a href="#">CEBPA Products</a> )                                                                    |
| Pathways:         | <a href="#">Brown Fat Cell Differentiation</a> , <a href="#">Positive Regulation of fat Cell Differentiation</a> |

### Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF488 conjugated: most applications: 1: 50 - 1: 250 |
|--------------------|-----------------------------------------------------|

Application Details

---

Restrictions: For Research Use only

Handling

---

Storage: 4 °C

---

Storage Comment: Store at 4°C for 6 months.
