

Datasheet for ABIN6831853

anti-Apelin antibody (Alexa Fluor 594)[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Apelin (APLN)
Reactivity:	Human, Rat, Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Apelin antibody is conjugated to Alexa Fluor 594
Application:	Please inquire

Product Details

Cross-Reactivity:	Human, Mouse (Murine), Rat (Rattus)
Characteristics:	APLN Conjugated Antibody

Target Details

Target:	Apelin (APLN)
Alternative Name:	APLN (APLN Products)
Pathways:	Positive Regulation of Peptide Hormone Secretion , Hormone Activity , Feeding Behaviour

Application Details

Application Notes:	AF594 conjugated: most applications: 1: 50 - 1: 250
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
