

Datasheet for ABIN6833420

**Recombinant anti-DYNLL1 antibody (Alexa Fluor 594)**[Go to Product page](#)

## Overview

|                |                                                       |
|----------------|-------------------------------------------------------|
| Quantity:      | 100 µL                                                |
| Target:        | DYNLL1                                                |
| Reactivity:    | Human, Mouse, Rat                                     |
| Host:          | Rabbit                                                |
| Antibody Type: | Recombinant Antibody                                  |
| Clonality:     | Monoclonal                                            |
| Conjugate:     | This DYNLL1 antibody is conjugated to Alexa Fluor 594 |
| Application:   | Please inquire                                        |

## Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | DYNLL1 Conjugated Antibody          |

## Target Details

|                   |                                                                                                                          |
|-------------------|--------------------------------------------------------------------------------------------------------------------------|
| Target:           | DYNLL1                                                                                                                   |
| Alternative Name: | DYNLL1 ( <a href="#">DYNLL1 Products</a> )                                                                               |
| Pathways:         | <a href="#">M Phase</a> , <a href="#">Tube Formation</a> , <a href="#">Positive Regulation of Endopeptidase Activity</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF594 conjugated: most applications: 1: 50 - 1: 250 |
|--------------------|-----------------------------------------------------|

Application Details

---

Restrictions: For Research Use only

Handling

---

Storage: 4 °C

---

Storage Comment: Store at 4°C for 6 months.
