

Datasheet for ABIN6833710

**anti-Vasopressin antibody (Alexa Fluor 594)**[Go to Product page](#)

## Overview

|              |                                                            |
|--------------|------------------------------------------------------------|
| Quantity:    | 100 µL                                                     |
| Target:      | Vasopressin (AVP)                                          |
| Reactivity:  | Human, Mouse, Rat                                          |
| Host:        | Rabbit                                                     |
| Clonality:   | Polyclonal                                                 |
| Conjugate:   | This Vasopressin antibody is conjugated to Alexa Fluor 594 |
| Application: | Please inquire                                             |

## Product Details

|                   |                                     |
|-------------------|-------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus) |
| Characteristics:  | AVP Conjugated Antibody             |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | Vasopressin (AVP)                      |
| Alternative Name: | AVP ( <a href="#">AVP Products</a> )   |
| Pathways:         | <a href="#">cAMP Metabolic Process</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF594 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
