

Datasheet for ABIN6839034

**anti-NKX3-1 antibody (Alexa Fluor 594)**[Go to Product page](#)

## Overview

|              |                                                       |
|--------------|-------------------------------------------------------|
| Quantity:    | 100 µL                                                |
| Target:      | NKX3-1                                                |
| Reactivity:  | Human                                                 |
| Host:        | Rabbit                                                |
| Clonality:   | Polyclonal                                            |
| Conjugate:   | This NKX3-1 antibody is conjugated to Alexa Fluor 594 |
| Application: | Please inquire                                        |

## Product Details

|                   |                            |
|-------------------|----------------------------|
| Cross-Reactivity: | Human                      |
| Characteristics:  | NKX3.1 Conjugated Antibody |

## Target Details

|                   |                                                                                                                                                                                                                   |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | NKX3-1                                                                                                                                                                                                            |
| Alternative Name: | NKX3.1 ( <a href="#">NKX3-1 Products</a> )                                                                                                                                                                        |
| Pathways:         | <a href="#">Intracellular Steroid Hormone Receptor Signaling Pathway</a> , <a href="#">Positive Regulation of Endopeptidase Activity</a> , <a href="#">Positive Regulation of Response to DNA Damage Stimulus</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF594 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
