## Overview

|              |                                                     |
|--------------|-----------------------------------------------------|
| Quantity:    | 100 µL                                              |
| Target:      | ANO9                                                |
| Reactivity:  | Human                                               |
| Host:        | Rabbit                                              |
| Clonality:   | Polyclonal                                          |
| Conjugate:   | This ANO9 antibody is conjugated to Alexa Fluor 647 |
| Application: | Please inquire                                      |

## Product Details

|                   |                           |
|-------------------|---------------------------|
| Cross-Reactivity: | Human                     |
| Characteristics:  | TM16J Conjugated Antibody |

## Target Details

|                   |                                         |
|-------------------|-----------------------------------------|
| Target:           | ANO9                                    |
| Alternative Name: | TM16J ( <a href="#">ANO9 Products</a> ) |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | AF647 conjugated: most applications: 1: 50 - 1: 250 |
| Restrictions:      | For Research Use only                               |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
