

Datasheet for ABIN6853829

**anti-MDFI antibody (Alexa Fluor 750)**[Go to Product page](#)

## Overview

|              |                                                     |
|--------------|-----------------------------------------------------|
| Quantity:    | 100 µL                                              |
| Target:      | MDFI                                                |
| Reactivity:  | Human, Rat                                          |
| Host:        | Rabbit                                              |
| Clonality:   | Polyclonal                                          |
| Conjugate:   | This MDFI antibody is conjugated to Alexa Fluor 750 |
| Application: | Please inquire                                      |

## Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human, Rat (Rattus)      |
| Characteristics:  | MDFI Conjugated Antibody |

## Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | MDFI                                            |
| Alternative Name: | MDFI ( <a href="#">MDFI Products</a> )          |
| Pathways:         | <a href="#">Maintenance of Protein Location</a> |

## Application Details

|                    |                                              |
|--------------------|----------------------------------------------|
| Application Notes: | AF750 conjugated: Western blot: 1: 100-1,000 |
| Restrictions:      | For Research Use only                        |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
