## Overview

|              |                                                           |
|--------------|-----------------------------------------------------------|
| Quantity:    | 100 µL                                                    |
| Target:      | Pleckstrin (PLEK)                                         |
| Reactivity:  | Human                                                     |
| Host:        | Rabbit                                                    |
| Clonality:   | Polyclonal                                                |
| Conjugate:   | This Pleckstrin antibody is conjugated to Alexa Fluor 750 |
| Application: | Please inquire                                            |

## Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human                    |
| Characteristics:  | PLEK Conjugated Antibody |

## Target Details

|                   |                                                                                                                                                                                                                                     |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Pleckstrin (PLEK)                                                                                                                                                                                                                   |
| Alternative Name: | PLEK ( <a href="#">PLEK Products</a> )                                                                                                                                                                                              |
| Pathways:         | <a href="#">Inositol Metabolic Process</a> , <a href="#">Regulation of G-Protein Coupled Receptor Protein Signaling</a> ,<br><a href="#">Regulation of Cell Size</a> , <a href="#">Regulation of Carbohydrate Metabolic Process</a> |

## Application Details

|                    |                                              |
|--------------------|----------------------------------------------|
| Application Notes: | AF750 conjugated: Western blot: 1: 100-1,000 |
| Restrictions:      | For Research Use only                        |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
