### Overview

|              |                                                      |
|--------------|------------------------------------------------------|
| Quantity:    | 100 µL                                               |
| Target:      | KISS1                                                |
| Reactivity:  | Human, Mouse                                         |
| Host:        | Rabbit                                               |
| Clonality:   | Polyclonal                                           |
| Conjugate:   | This KISS1 antibody is conjugated to Alexa Fluor 750 |
| Application: | Please inquire                                       |

### Product Details

|                   |                           |
|-------------------|---------------------------|
| Cross-Reactivity: | Human, Mouse (Murine)     |
| Characteristics:  | KISS1 Conjugated Antibody |

### Target Details

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| Target:           | KISS1                                                            |
| Alternative Name: | KISS1 ( <a href="#">KISS1 Products</a> )                         |
| Pathways:         | <a href="#">Positive Regulation of Peptide Hormone Secretion</a> |

### Application Details

|                    |                                              |
|--------------------|----------------------------------------------|
| Application Notes: | AF750 conjugated: Western blot: 1: 100-1,000 |
| Restrictions:      | For Research Use only                        |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
