## Overview

|              |                                                    |
|--------------|----------------------------------------------------|
| Quantity:    | 100 µL                                             |
| Target:      | MIA                                                |
| Reactivity:  | Human, Mouse                                       |
| Host:        | Rabbit                                             |
| Clonality:   | Polyclonal                                         |
| Conjugate:   | This MIA antibody is conjugated to Alexa Fluor 750 |
| Application: | Please inquire                                     |

## Product Details

|                   |                         |
|-------------------|-------------------------|
| Cross-Reactivity: | Human, Mouse (Murine)   |
| Characteristics:  | MIA Conjugated Antibody |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | MIA                                  |
| Alternative Name: | MIA ( <a href="#">MIA Products</a> ) |

## Application Details

|                    |                                              |
|--------------------|----------------------------------------------|
| Application Notes: | AF750 conjugated: Western blot: 1: 100-1,000 |
| Restrictions:      | For Research Use only                        |

Handling

---

|                  |                            |
|------------------|----------------------------|
| Storage:         | 4 °C                       |
| Storage Comment: | Store at 4°C for 6 months. |
