

Datasheet for ABIN6866988

anti-Alcohol Dehydrogenase (ADH) antibody (Biotin)

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Alcohol Dehydrogenase (ADH)
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Monoclonal
Conjugate:	Biotin
Application:	Please inquire

Product Details

Cross-Reactivity:	Human, Mouse (Murine), Rat (Rattus)
Characteristics:	Alcohol Dehydrogenase Conjugated Antibody

Target Details

Target:	Alcohol Dehydrogenase (ADH)
Alternative Name:	Alcohol Dehydrogenase (ADH Products)

Application Details

Application Notes:	Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000; Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.
Restrictions:	For Research Use only

Handling

Storage:	4 °C
Storage Comment:	Store at 4°C for 6 months.
