

Datasheet for ABIN6868425

Recombinant anti-Cyclin D3 antibody (Biotin)[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Cyclin D3 (CCND3)
Reactivity:	Human, Mouse
Host:	Rabbit
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This Cyclin D3 antibody is conjugated to Biotin
Application:	Please inquire

Product Details

Cross-Reactivity:	Human, Mouse (Murine)
Characteristics:	Cyclin D3 Conjugated Antibody

Target Details

Target:	Cyclin D3 (CCND3)
Alternative Name:	Cyclin D3 (CCND3 Products)
Pathways:	Cell Division Cycle , Mitotic G1-G1/S Phases , Glycosaminoglycan Metabolic Process

Application Details

Application Notes:	Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000;
--------------------	---

Application Details

Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.

Restrictions: For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
