

Datasheet for ABIN6868701

Recombinant anti-Endonuclease G antibody (Biotin)[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Endonuclease G (ENDOG)
Reactivity:	Human
Host:	Rabbit
Antibody Type:	Recombinant Antibody
Clonality:	Monoclonal
Conjugate:	This Endonuclease G antibody is conjugated to Biotin
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	Endo G Conjugated Antibody

Target Details

Target:	Endonuclease G (ENDOG)
Alternative Name:	Endo G (ENDOG Products)
Pathways:	Apoptosis

Application Details

Application Notes:	Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000;
--------------------	---

Application Details

Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.

Restrictions: For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
