Datasheet for ABIN6868771
anti-HHV-1 Thymidine Kinase antibody (Biotin)

Overview

Quantity:	100 µL
Target:	HHV-1 Thymidine Kinase (HHV-1 TK)
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This HHV-1 Thymidine Kinase antibody is conjugated to Biotin
Application:	Please inquire

Product Details

Cross-Reactivity:	Human
Characteristics:	KITH_HHV1S Conjugated Antibody

Target Details

Target:	HHV-1 Thymidine Kinase (HHV-1 TK)
Alternative Name:	KITH_HHV1S (HHV-1 TK Products)

Application Details

Application Notes:	Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000; Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.
Restrictions:	For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
