

Datasheet for ABIN6870461

**anti-PKC zeta antibody (pThr560) (Biotin)**[Go to Product page](#)

## Overview

|                      |                                                |
|----------------------|------------------------------------------------|
| Quantity:            | 100 µL                                         |
| Target:              | PKC zeta (PRKCZ)                               |
| Binding Specificity: | pThr560                                        |
| Reactivity:          | Human, Mouse, Rat                              |
| Host:                | Rabbit                                         |
| Clonality:           | Monoclonal                                     |
| Conjugate:           | This PKC zeta antibody is conjugated to Biotin |
| Application:         | Please inquire                                 |

## Product Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Cross-Reactivity: | Human, Mouse (Murine), Rat (Rattus)        |
| Characteristics:  | PKC zeta(Phospho-T560) Conjugated Antibody |

## Target Details

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | PKC zeta (PRKCZ)                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Alternative Name: | PKC zeta ( <a href="#">PRKCZ Products</a> )                                                                                                                                                                                                                                                                                                                                                                                                                              |

Application Details

Application Notes: Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000; Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100 - 1: 500.

Restrictions: For Research Use only

Handling

Storage: 4 °C

Storage Comment: Store at 4°C for 6 months.
