### Overview

|              |                                            |
|--------------|--------------------------------------------|
| Quantity:    | 100 µL                                     |
| Target:      | PARL                                       |
| Reactivity:  | Human                                      |
| Host:        | Rabbit                                     |
| Clonality:   | Polyclonal                                 |
| Conjugate:   | This PARL antibody is conjugated to Biotin |
| Application: | Please inquire                             |

### Product Details

|                   |                          |
|-------------------|--------------------------|
| Cross-Reactivity: | Human                    |
| Characteristics:  | PARL Conjugated Antibody |

### Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | PARL                                   |
| Alternative Name: | PARL ( <a href="#">PARL Products</a> ) |
| Pathways:         | <a href="#">Autophagy</a>              |

### Application Details

|                    |                                                                                                                                                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Biotin conjugated: Working with enzyme-conjugated streptavidin. ELISA: 1: 200 - 1: 1,000;<br>Western Blot: 1: 200 - 1: 1,000; IHC/ICC: 1: 100 - 1: 500; Flow Cytometry: 1: 50 - 1: 250; IF: 1: 100<br>- 1: 500. |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Application Details

---

Restrictions: For Research Use only

Handling

---

Storage: 4 °C

---

Storage Comment: Store at 4°C for 6 months.
